Dear Parents and Carers

I am writing to inform you that we are issuing all students in Year 10 the relevant workbooks for their Science GCSE. Teachers will be setting homework from the workbook on a weekly basis and will record on Insight for you and the students to track.

Students are expected to complete the work set and self-mark it in a different colour ink using the answers in the back of the work book. They will be expected bring the workbooks into school to show their teachers when it is completed on the deadlines issued on Insight.

We will also be carrying out several spot checks throughout the term to check the students progress with the materials.

Please could you support your child in the completion of this work. A good study strategy is to do 30 minutes every night when they come in from school. Evidence suggests that frequent and regular study and practice holds the key to successfully retaining information. Thank you for your support.

Thank you for your support.

Yours sincerely
