08 June 2022

Dear Parents and Carers

I am writing to inform you that Year 8 have a science assessment on Tuesday 28 June which will take place during their science lesson. The assessment will be based on the work they have covered this year.

It is imperative that your child starts to revise now so that they can achieve the best possible result. To aid their revision I have included a revision list below.

<b>BIOLOGY</b>	<b>Key Stage 3 Science Higher Level Revision and Practice (page numbers)</b>
Food and digestion	8 - 11
Plants and photosynthesis	30
Transport in animals	18 - 20

<b>CHEMISTRY</b>	<b>Key Stage 3 Science Higher Level Revision and Practice (page numbers)</b>
The Periodic Table	56, 67 - 71
Acids and bases	80 - 81
Earth materials	91 - 93

<b>PHYSICS</b>	<b>Key Stage 3 Science Higher Level Revision and Practice (page numbers)</b>
Electricity	151 - 157
Magnets and electromagnets	158 - 159
Energy	102 - 106, 109 - 111

The tests will be used in conjunction with other continual assessment data and teacher assessment to determine the student's science sets in year 9. Your support in ensuring your child prepares thoroughly for the forthcoming tests is much appreciated!

Best regards

Mr A Smythe  
Director of Science
