07 February 2019

Dear Parents and Carers

I am writing to inform you of the revision sessions taking place in Science during half term. All students of all abilities have a session they can attend. The revision will take place on Monday, 18 February and will run from 09:00 – 12:00. In order for us to make a swift start, please could students arrive at 08:45. They should enter the building via the community entrance. They should bring a calculator, pencil case and a snack/drink.

The sessions taking place are:

11aPh1 (triple) Physics - Mr Smythe room 1-214  
11bPh1 (triple) Physics - Mr Manning room 2-231  
Year 11 Higher Tier Science - Ms Bijens room 2-232  
Year 11 Foundation Tier - Mr Bertin room 1-215

Please encourage your child to attend.

Furthermore, all students will be issued with a revision exercise on the required practical. The should complete this using their revision guides over the half term break.

If your child does not have the revision guides for Science, they should come and see me as I have spares.

Yours sincerely

A handwritten signature in black ink, appearing to read 'A. Smythe', written in a cursive style.

Mr A. Smythe  
Director of Science
